RUBY ON RAILS ENGINEER

Full Stack Developer with experience in Ruby on Rails and JavaScript based programming and a background in customer service, banking, procurement, and logistics. Passionate about coding because it combines technique and creativity, provides challenge to constantly learn and be engaged in a high growth, fast paced environment. Diligent, organized, respectful team player, who can adapt, solve problems, and collaborate to meet and exceed team goals. I prioritize competing tasks, meet deadlines, and deliver a quality product.

TECHNICAL SKILLS

JavaScript, React, Ruby, Ruby on Rails, Sinatra, SQLite, PostgreSQL, HTML, CSS

TECHNICAL PROJECTS

Get Together - GitHub | Demo | Deployed
This app is built with intention to help friends to get together and have a great time without hustle of messaging everyone separately.
- Built Rails API and React frontend that can be deployed to a single domain.
- Implemented Nested attributes, what allowed user to create new category, while creating new event.
- Used Polymorphic Active Record Associations to provide user with 2 roles 'Host' and 'Guest'.
- Created Context in React frontend to share logged in user information throughout the app.
- Incorporated Material UI library for styling components

Project Tracker - GitHub | Demo | Deployed
Purpose of this app is help user to keep track of clients, employees, and projects they work on.
- Built Rails API and React frontend that can be deployed to a single domain.
- Implemented password protection, authentication, and authorization for users using 'bcrypt' gem and cookies
- Created 5 models on the backend, that include one-to-many and many-to-many relationship

Bucket List - GitHub | Demo
Helper application for users to keep track of their bucket lists.
- Built Sinatra API backend that uses Active Record to access and persist data in a database.
- Built a separate React frontend application that interacts with the API to perform CRUD actions.
- Created two models with a one-to-many relationship, with full CRUD capability for one of them.

EXPERIENCE

Lead associate of operations, JPMorgan Chase & Co.   Gardnerville, Nevada   10/2018 – 11/2021
